

We would like to express our gratitude to all the friends and sponsors of our project, especially to the children of the primary schools at Koeln-Suerth and Troisdorf-Bergheim.

Thanks to your sponsoring we were able to build a cistern this year. Now we can reduce the costs for the sweet water consumption.

Education is freedom

This is the aim of our numerous current and future projects like:

- sponsorship of needy school children
- education for parents
- afternoon classes for adult illiterates
- providing clean sweet water
- medical treatment by a nurse
- guidance of the families by a social worker

We highly appreciate your further support to continue our Enyiduru projects.

Learning for a better future

Registered Enyiduru Project Nigeria

Annual Report 2013

Looking back with pride – at 15 years of pedagogical work

Our project started when the Enyiduru Association first paid the school fees for those children whose parents were not capable to pay for them themselves.

It immediately became clear that a holistic approach to education starts at the nursery age.

So we started to build first a kindergarden and afterwards a primary school. Today, there are more than 400 children enjoying education on these compounds.

Getting enroled in school and graduate

Lots of children wish to be enroled coming with their parents

The children reach their first graduation after 6 years at school. Handing over the school certificate is a great highlight for them. The students, teachers and families celebrate this event together with singing, dancing and eating.

The kids tell their impressions

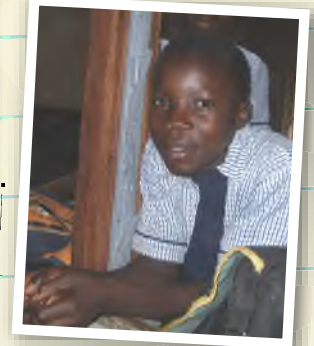

Anastasia Ugwuanyi (13)

„My father is a bricklayer but he is sick and can't work any more. My mother tries to earn some money for the family with selling peanuts but the money is not even enough to pay for my dad's medicine. I am more

than happy that the Enyiduru Association allows me to attend a boarding grammar school.“

John Ogboso (14)

My dad is out of work but he has always dreamt of going to school. Now his dream can come true with me. I am so grateful for the scholarship to attend grammar school and learn a lot.

**Chidera (20)
and
Chika (31)**

After 13 years of schooling I have now graduated with a diploma. I would like to become a nurse.

My friend Chika will finish her teacher training this year. Both of us are real ,Enyiduru kids'!“
